10. As you begin to evaluate potential career options, what are you most excited about working at LinkedIn? Please provide areas of interest and how you believe a position at LinkedIn aligns with your career aspirations. *

I'm excited about LinkedIn because it is one of the few places where large-scale ML directly shapes real economic opportunities. I'm particularly interested in recommendation and search systems, graph learning, and efficient LLM/diffusion modeling. A role at LinkedIn aligns with my goal of building high-impact, scalable AI systems that improve personalization and member experience for millions of users.

11. What are your 3 key factors in evaluating an internship opportunity? *

Technical Growth, Real-World Impact and Team Culture

12. Outside of your education commitments, can you share what extracurriculars you are involved with and any leadership opportunities. *

Outside my academic work, I'm involved in mentoring junior graduate students in our lab, helping them with research direction, coding practices, and conference preparation. It has strengthened my leadership in coordinating workflows, managing experiments, and driving research toward publication.
